**AUTHORS OF THE EFFECTIVE DRUG CONTROL STRATEGY** .................................................. i

**EXECUTIVE SUMMARY** ........................................................................................................ 1

**THE NEED FOR A NEW MODEL OF DRUG CONTROL** ............................................................... 2

How many people must be incarcerated for current drug policy to work? .................................. 2
Does the U.S. drug strategy protect children from drugs? .......................................................... 3
Does the current drug control strategy reduce the supply of drugs and raise their price? .............. 4
Does the current strategy protect public health? ........................................................................... 4
It is time to develop a drug strategy that works............................................................................ 5

**GOAL NUMBER ONE: REDUCE THE HARM ASSOCIATED WITH DRUG ABUSE** ............... 7

**FIND A SOLUTION TO DRUG ABUSE THAT REALLY WORKS** ............................................. 7
Commission a non-partisan panel of experts to evaluate America’s longest war............................ 7
Allow cities and states to experiment with their own approach to drug control............................. 8
Make efforts at all levels of government to separate the markets for marijuana from other illegal drugs. 8

**REDUCE DRUG ABUSE AND USE AMONG YOUTH AND YOUNG ADULTS** .................. 10
Triple the current National Drug Control Strategy budget share for reducing youth and young adult drug use. 11
Focus funding and efforts on strategies that have documented success in reducing youth drug use. 11
Use facts, not scare-tactics to educate youth.................................................................................. 12
Redirect DARE funding into more productive and effective programs........................................... 13
Be responsible with the provision of anti-drug messages............................................................... 13

**REDUCE DRUG USE AND ABUSE AMONG WOMEN** ....................................................... 14
Fund prevention programs that target women............................................................................... 15
Increase services for women........................................................................................................... 16
Fund research on women’s experiences........................................................................................ 17

**REDUCE DRUG ABUSE AND USE AMONG ALL AMERICANS** .......................................... 17
Provide drug treatment upon request and a variety of treatment options.................................... 18
Enact legislation that provides full continuum insurance coverage for substance abuse............. 18
Reduce children’s exposure to cigarette and alcohol advertising............................................... 19

**REDUCE THE SPREAD OF INFECTIOUS DISEASE** .......................................................... 19
Repeal State and Federal laws designed to prevent access to and possession of sterile syringes 19
Make prevention and treatment of Hepatitis-C a high public health priority ............................... 20

**GOAL NUMBER ONE: CHAPTER SUMMARY** ..................................................................... 20

**GOAL NUMBER TWO: REDUCE THE HARM CAUSED BY THE “WAR ON DRUGS”** .......... 24

**REDUCE CRIME AND VIOLENCE ASSOCIATED WITH THE DRUG WAR** .................. 24
Commission a study on the relationship between drugs, alcohol and violence............................ 26

**MAKE CRIMINAL PENALTIES FIT THE CRIME** ............................................................... 26
End mandatory minimum sentencing (statutory and guideline).................................................... 27
Alter sentencing guidelines, so judges have more room to maneuver within Guideline boxes and make Guidelines advisory, rather than mandatory ......................................................... 28
Allow judges to determine whether a drug prosecution is handled more appropriately by state, local or federal courts .............................................................................................................. 29
Cease the costly and ineffective targeting of marijuana possession cases ................................ 29
END THE RACIAL BIAS IN DRUG LAWS

End the disparity between crack and powder cocaine sentencing
Stop targeting black and Latino communities for needle possession arrests

DO NOT UNDERMINE EDUCATION IN THE NAME OF THE “WAR ON DRUGS”
State governments should not spend more on prisons than on education
Eliminate the ban on student loan guarantees to persons with a drug conviction

ALLOW DOCTORS GREATER FREEDOM TO ADDRESS PUBLIC HEALTH ISSUES
Transfer scheduling authority to the Department of Health and Human Services
Begin clinical trials of drug maintenance therapy
Allow doctors greater freedom in prescribing medications for pain control
Allow a broader distribution of opiate agonist chemotherapy (e.g. methadone, LAAM) and move oversight of such programs to the Center for Substance Abuse and Treatment
Recognize the rights of states, doctors and patients to make their own decisions regarding the usefulness of medical marijuana
End the de facto moratorium on medical marijuana research
Develop a distribution system for medical marijuana

PROMOTE HEALTH SERVICES FOR ALL WOMEN, NOT PROSECUTION OF PREGNANT WOMEN
Address the problem of drug abuse by women as a women’s health issue not a criminal matter

ENCOURAGE “FAMILY VALUE FRIENDLY” POLICIES AND FAMILY UNITY THROUGH TREATMENT AND SUPPORT SERVICES, NOT PUNITIVE RESPONSES
Repeal section 115 of the TANF and Food Stamp benefits programs, and reform welfare to help, rather than penalize women struggling with drug abuse problems
Fund alcohol and drug abuse treatment programs that work with women and their children

PROTECT CIVIL LIBERTIES AND THE AMERICAN CONSTITUTION
Stop the misuse of forfeiture laws
Restore voting rights to non-violent drug offenders and allow unhindered public referenda and initiatives
Restore civil liberties undermined during the drug war

REDUCE GOVERNMENT AND LAW ENFORCEMENT CORRUPTION
Establish checks and balances to oversee drug enforcement activities and establish strict hiring standards for drug enforcement officials

REDUCE WASTEFUL SPENDING AND DAMAGE CAUSED BY INTERNATIONAL DRUG CONTROL EFFORTS
Place less emphasis on drug interdiction and source country eradication strategies and greater emphasis on domestic drug prevention and treatment programs as well as alternative economic development
End the drug certification process
Stop encouraging a role for the military in counternarcotics activities properly performed by civilian law enforcement agencies, both at home and abroad
Stop the use of herbicides and biological agents in efforts to eradicate illegal drugs outside of the United States as well as within the US
